

Leave it to HFI to once again bring our game-changing technology to your performance-demanding market.

The amazing yarn used for our versatile new **T-One** textiles delivers an super soft, cottony hand feel. But that's not all, **T-One** also delivers the versatile performance your customers demand, including quick-dry, high breathability, and solid UV protection. FEEL how it works!

HFI's "T-One" Textiles:

- * Engineered poly, recycled poly or lycra yarn: combines crimped & porous properties to allow the best feel and function.
- * Cottony-soft smoothness, super-quick-dry, high breathability and UV protection.
- * Woven and Knit options: for maximum flexibility.
- * Base, Mid or Outerwear weights~ Ideal for all seasons and conditions.

Maximum versatility, function and comfort,

T-One performance is built to impress.

At HFI we are always innovating- FEEL the difference and ASK US about the the latest update from the **T-One** Textile Collection!
